Overview

Versatile Lifting Solution

This mini electric hoist is designed for efficient and economical lifting support in industrial, construction, and workshop environments. It features a robust electric motor and a durable steel cable, allowing for both single and double-line lifting configurations to accommodate various load requirements. With user-friendly controls, including a push-button operation and emergency stop, this hoist ensures both safety and ease of use for professional material handling.

Performance

Lifting Capacity

200 kg
Single Line

400 kg
Double Line

Lifting Height

12 m
Single Line

6 m
Double Line

Lifting Speed

10 m/min

Technical Specifications

Protection Class

IP54

Motor Insulation Class

B

Power Supply

220V/50Hz

Features

Compact and portable design featuring a powerful motor, cooling fan, and safety hook for versatile lifting.

Design Highlights

- 360-degree rotating lifting hook
- Drop-forged, heat-treated suspension hook
- Caged roller bearings on drum center shaft
- Compact design for one-handed operation

Safety Features

Emergency Stop Switch, Thermal Protection, Position Limit Switch, Safety Latch, Over-load Protection

Applications

Compatible Crane Types

- Single-girder crane
- Double-girder crane
- Cantilever crane
- Gantry crane
