Product Overview

Compact Porcelain Electric Infrared Cooker

This mini infrared cooker features a sophisticated red porcelain finish and a pure black crystal heatproof panel, combining elegant aesthetics with high-performance kitchen utility. Designed for efficiency, it utilizes German-engineered stove core technology to ensure rapid, even heat distribution for boiling water or brewing tea. With seven-stage fire regulation and automatic safety protections, it offers precise control and peace of mind for professional and personal use.

Technical Specifications

Rated Power

1360 W
Rated Power

Electrical Standards	220V, 50Hz
Dimensions	240mm (Diameter) x 100mm (Height)
Net Weight	2 KG

Performance Features

Safety Functions

- High-temperature automatic protection
- Automatic shutdown with delay heat dissipation

Material Composition

Porcelain Surface • Black Crystal Heatproof Panel

Fire Regulation Levels	7
