

Mini Racing Pocket Bike

This mini racing pocket bike is designed for recreational use. It features a fairing, low seat, small wheels, and a single-cylinder engine.

Product Overview

Compact Racing Performance

The X50 Mini Racing Pocket Bike is a specialized recreational vehicle designed for agility and performance. Featuring a sleek racing-style fairing and a low-profile design, it is optimized for young riders and enthusiasts looking for a compact motorcycle experience. Its robust single-cylinder engine and stable chassis make it a reliable choice for track-based fun and recreational riding.
