

# Mini-Split Air Conditioner Cleaning Cover Bag

This cleaning cover bag is designed for mini-split air conditioners. It features a waterproof sealing strip and an improved drain to prevent water leakage during cleaning.

## ADDITIONAL IMAGES

## Product Overview

Protective cleaning cover designed to prevent water leakage during maintenance.

### Professional Air Conditioner Cleaning Solution

This specialized cleaning cover is designed for mini-split air conditioning units, providing a protective barrier that prevents water and debris from spreading during maintenance. Featuring a durable, waterproof construction with a dedicated drainage system, it simplifies the cleaning of wind wheels and internal ducts. The adjustable design ensures a secure fit for various unit sizes, making it an essential tool for both professional HVAC technicians and maintenance teams.

## Technical Specifications

### 01 External Type Outlet

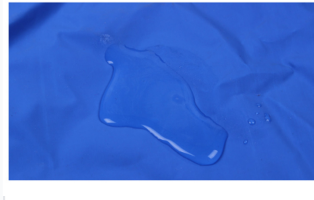

External type outlet ensures efficient removal of cleaning solution and wastewater.

### 02 Excellent Sewing Technology

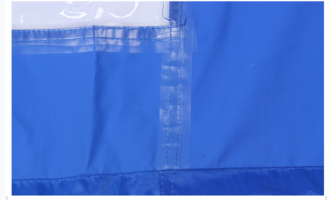

Excellent sewing technology ensures durability and a secure fit.

### 03 Excellent Waterproof Materials

High-quality waterproof materials prevent water penetration during deep cleaning.

### 04 Adopt PU Waterproof Sealing Strip

Integrated PU waterproof sealing strip provides a tight seal to prevent leakage.

#### Material Features

Waterproof, PU Sealing Strip, Non-toxic, Tasteless

#### Drainage Compatibility

6-point drain

## Sizing and Compatibility

### Size Compatibility Table

Size	Max Circumference	Unit Capacity
Medium	2.4 meters	1P to 1.5P (9000-12000 BTU)
Large	3.2 meters	2P to 3P (18000 BTU)

## Key Advantages
