

Mini-Split Air Conditioner Outdoor Unit Wall Mounting Bracket with Level

This wall mount bracket is designed to support mini-split air conditioner outdoor units. It features an integrated level to ensure precise and horizontal installation.

ADDITIONAL IMAGES

Overview

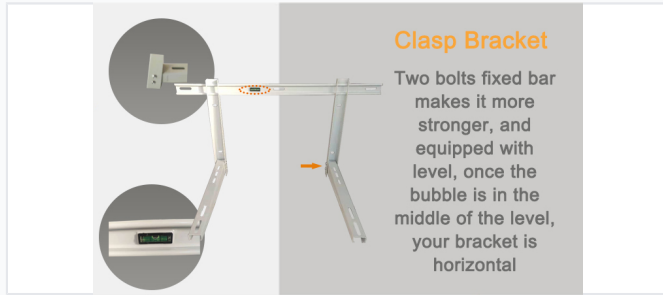

Durable outdoor wall support bracket designed for reliable, long-term mini-split air conditioner installation.

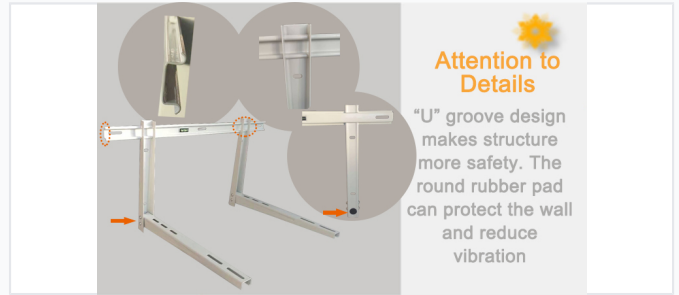

Professional AC Mounting Solution

This heavy-duty wall mounting bracket is engineered for the secure installation of mini-split air conditioner outdoor units. Featuring an integrated leveling bubble, it ensures precise, horizontal alignment during setup. The robust design incorporates a U-groove structure for enhanced safety and rubber vibration dampers to minimize noise and protect wall surfaces.

Technical Specifications

Built-in level ensures horizontal alignment, while the two-bolt fixed bar enhances overall structural stability.

The U-groove design improves safety, and included rubber pads significantly reduce operational vibration and protect mounting surfaces.

Model Specifications

Model	Bottom Bar (mm)	Vertical Bar (mm)	Load Capacity (kg)	Net Weight (kg)
XA-380	450	400	100	2.3
XA-480	550	420	160	3.2
XA-600	650	450	200	4

Key Features

- Integrated spirit level for accurate installation
- Two-bolt fixed bar design for added strength
- U-groove structural design
- Round rubber pads for vibration reduction
- Adjustable M8*42 plastic bolts

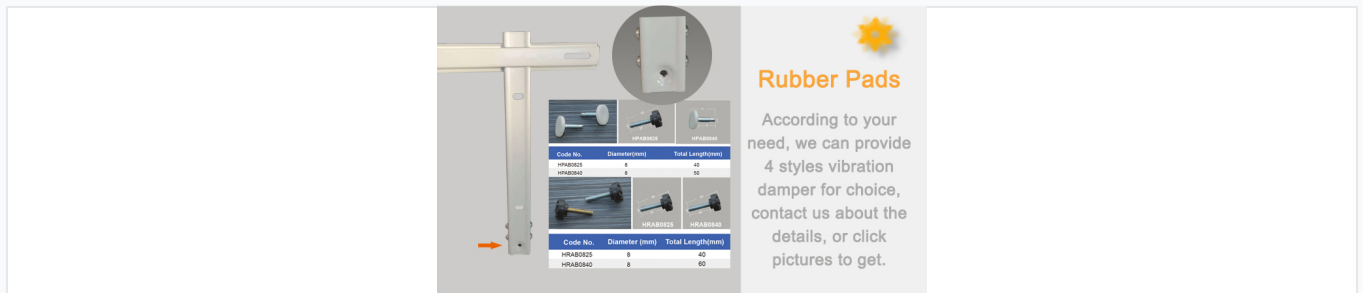

Material & Finish

Cold-rolled steel, Zinc-coated, Epoxy resin polyester coating

Color

RAL 9002

Vibration Dampers

Four styles of vibration dampers are available to customize your installation for optimal noise reduction.

Available Vibration Damper Styles

Code	Diameter (mm)	Total Length (mm)
HPAB0825	8	40
HPAB0840	8	50
HRAB0825	8	40
HRAB0840	8	60
