Overview

Heavy-duty wall-mounted bracket designed for stable outdoor unit placement.

Heavy-Duty Mini-Split Mounting Solution

This wall-mounted bracket system is engineered for the secure installation of mini-split air conditioner outdoor units. Featuring a long beam design for enhanced stability and weight distribution, the bracket is constructed from durable cold-rolled steel with a weather-resistant epoxy polyester finish. It includes adjustable rubber vibration dampers to minimize noise transfer, ensuring a reliable and quiet operation for professional HVAC installations.

Technical Specifications

Model Specifications

Model	Bottom Bar (mm)	Vertical Bar (mm)	Cross Bar (mm)	Load Capacity (kg)
HW-360	360	400	800	100
HW-450	450	450	800	100
HW-500	500	500	1000	200
HW-550	550	500	1000	200

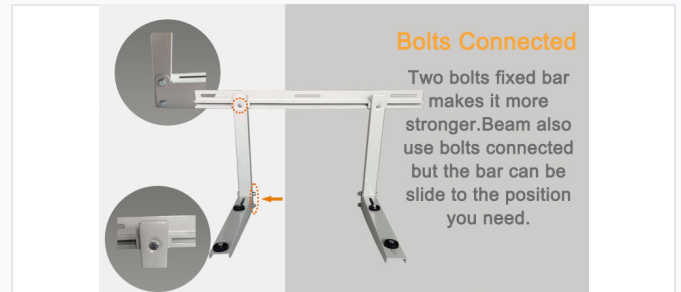

Material & Construction

Material Composition	Cold-rolled steel, Zinc-coated steel, Electro-galvanized
Surface Finish	Epoxy resins in polyester (Outdoor grade)
Color	RAL 9001

Features & Adjustability

Adjustable rubber pads ensure a secure fit and effective vibration dampening.

The sliding bar design allows for easy positioning and secure bolt-fixed assembly.

Vibration Damping

- Adjustable black rubber pads for condenser fitment
- White rubber pads for wall vibration reduction

Adjustment Hardware

- 2x Adjustable bolts M8*42 (for leveling)
- Assembling bolts M8*65 (for secure installation)
