

Mini Tiller for Soil Cultivation

This mini tiller is designed for efficient soil cultivation in gardens and small farms. Its robust engine, adjustable tilling depth, and durable tines ensure effective soil preparation for weeding, loosening soil, aerating, and preparing seedbeds.

Product Overview

Compact Soil Cultivation Solution

This mini tiller is engineered for efficient soil cultivation in gardens and small farms, offering a robust engine and durable tines for effective soil preparation. Designed with user safety in mind, it features a unique patented emergency stop system that automatically shuts down the machine if the operator separates from the controls. Its lightweight, ergonomic design ensures comfortable operation, making it ideal for weeding, aerating, and preparing seedbeds with ease.

Safety Features

Safety Systems

Emergency Stop, Auto Flame Failure, Operator Separation Protection

Operational Characteristics

Performance Highlights

1 High

Stability Rating

Stability Design

- Post-rotary design for balance
- Anti-rollover construction
- Smooth walking operation
- No forward or backward dumping

Applications

Recommended Applications

Weeding • Soil Loosening • Aerating • Seedbed Preparation
