

Mini Tube Cutter

This mini tube cutter is designed for cutting copper, aluminum, and other thin-walled tubing. Its small size makes it suitable for use in plumbing, HVAC, and automotive applications.

Product Overview

Compact Precision Cutting

This mini tube cutter is a versatile, compact tool engineered for precision in tight spaces. Designed for cutting copper, aluminum, and other thin-walled tubing, it features a hardened steel cutting wheel and a knurled adjustment knob for easy pressure control. With its small working radius and integrated deburrer, it is an essential tool for plumbing, HVAC, and automotive professionals.

Key Features

Core Features

- Integrated deburrer
- Small working radius for tight spaces
- Hardened steel cutting wheel
- Knurled adjustment knob for precise pressure control
- Dual-roller design for smooth tracking

Applications

Suitable Industries

Plumbing, HVAC, Automotive

Material Compatibility

Compatible Materials

Copper • Aluminum • Thin-walled tubing
