

Mini Tubular Ventilation Fan

This mini tubular ventilation fan is designed for efficient air circulation in confined spaces. It features a durable metal housing and a dynamically balanced impeller for smooth and quiet operation.

Overview

Compact Ventilation Solution

The Mini Tubular Ventilation Fan is engineered for efficient air circulation within confined spaces. Featuring a durable metal housing and a dynamically balanced impeller, this unit ensures smooth and quiet operation. Its compact design allows for straightforward installation in tight areas, making it an ideal choice for bathrooms, kitchens, and small workshops.

Performance

Operational Sound	Silent
Air Velocity	Strong

Construction

Housing Material	Metal
Impeller Design	Dynamically balanced

Applications

Recommended Applications	Bathroom, Kitchen, Small Workshop, Confined Spaces
