

Mini Waterproof Connector Cable with Metal Screw Nut

This mini waterproof connector cable features a durable metal screw nut for secure connections. It is designed for outdoor use and provides protection against water and dust ingress, ensuring long-lasting performance.

Product Overview

Compact Waterproof Connectivity

This mini waterproof connector cable is engineered for reliable performance in demanding lighting environments. Featuring a durable metal screw nut, it ensures a secure, weather-resistant connection suitable for outdoor installations. Its compact design makes it an ideal solution for LED lighting systems requiring robust protection against water and dust ingress.

Technical Specifications

Ingress Protection

IP68

Connector Type

Waterproof Power Connector with Metal Screw Nut

Applications

LED Lighting, Outdoor Lighting, LED Strip Systems, Power Distribution
