

Mini Wireless Charging Power Bank with LED Light

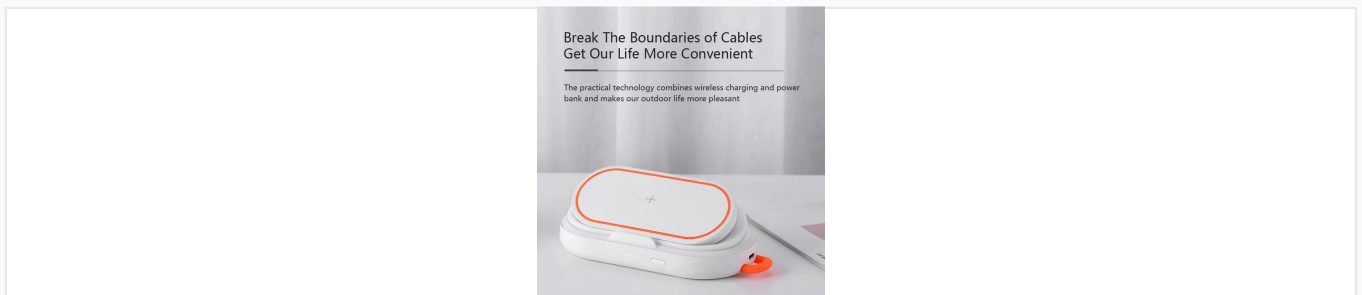

This mini power bank combines wireless charging with an integrated LED light. Its compact and portable design makes it ideal for outdoor adventures and everyday use.

ADDITIONAL IMAGES

Product Overview

Combines wireless charging and power bank capabilities for convenient outdoor use.

Versatile Power & Lighting Solution

This compact and portable power bank is designed for outdoor adventures and everyday convenience, combining a wireless charger, a wired power bank, and a multi-mode LED light in one device. It supports fast wireless charging for Qi-enabled devices and allows for simultaneous wired charging, making it a reliable backup for your mobile devices. With its integrated LED light featuring white, RGB, and SOS modes, it serves as a practical tool for camping, emergencies, or night-time use.

Key Features

Soft And Cosy Light

Embedded soft and comfortable light ring delivers warm light

Embedded soft light ring provides warm illumination.

Light Modes

White Light • RGB Light • SOS Red Light

Core Features

Wireless Charging, Wired Charging, LED Light, Portable, Outdoor Ready

Technical Specifications

Two Charging Modes Easy Operation

Both wireless charging and wired charging are supported
Charging two phones at same time

Supports both wireless and wired charging for simultaneous device power.

Performance Metrics

10 W

Wireless Output

7 mm

Max Case Thickness

Charging Modes

- Wireless Charging (Qi-enabled)
- Wired Charging (USB)

Safety & Protection

Comprehensive safety features including overvoltage, temperature, and short circuit protection.

Safety Protections

- Input Overvoltage Protection
- Output Overvoltage Protection
- Temperature Protection
- Short Circuit Protection
- Overload Protection
- Foreign Object Detection
