

Miniature 2-Pole Circuit Breaker 20A

This miniature circuit breaker is a 2-pole device rated for 20A. It provides short-circuit protection in electrical circuits, preventing damage to equipment.

Product Overview

Reliable Circuit Protection

This miniature circuit breaker (MCB) is designed to provide robust overload and short-circuit protection for electrical systems. Engineered for safety and efficiency, the device is suitable for both industrial and residential applications. It features a 2-pole configuration and is compatible with standard AC power systems, ensuring reliable performance and equipment protection.

Technical Specifications

Detailed view of the NT-50 circuit breaker specifications and pole configuration.

Model Number	NT-50
Pole Configuration	2P1E
Rated Current	20 A
Rated Frequency	50-60 Hz
Voltage Ratings	250VAC, 440VAC

Performance Metrics

Overview

Quick Details

Piece of Origin:	Zhejiang, China	Brand Name:	seice e
Model Number:	NT50-C(B)	Type:	MINI
Poles Number:	2	Pole:	2P
Breaking capacity:	1.5kA	Rated frequency:	50/60 Hz
Color:	Black	Rated Current(A):	5,10,16,20,25,32

Supply Ability

Supply Ability: 2000 Piece/Pieces per Week

Packaging & Delivery

Packaging Details: IN CTNS
Port: NINGBO SHANGHAI

Technical overview and key performance characteristics of the 2-pole MCB.

Breaking Capacity

1 kA

at 220VAC

2.5 kA

at 220VAC

1.5 kA

at 415VAC
