

Miniature Circuit Breaker C16 230/400V

This miniature circuit breaker is designed to protect electrical circuits from overcurrent. It trips and interrupts the circuit when it detects an overload or short circuit.

Overview

Smart Circuit Protection

This miniature circuit breaker offers advanced electrical protection for residential and commercial circuits. It features real-time monitoring of electricity data, remote control capabilities, and breakdown diagnosis. Designed for single-phase lines, it provides reliable protection against overcurrent, over-voltage, under-voltage, and electrical shock while maintaining a compact form factor.

Electrical Ratings

Rated Voltage

230 V

Min Rated Voltage

400 V

Max Rated Voltage

Tripping Characteristic

C16

Rated Frequency

50 Hz

Compliance & Standards

Certifications

CE, IEC 60898-1

Features

Smart Capabilities

- Real-time electricity data monitoring
- Remote control
- Breakdown forecast and diagnosis
- Power and power charge metering
- Statistics and calculation

Protection Functions

Overcurrent • Over-voltage • Under-voltage • Human shock protection • Short-circuit
