

Miniature Pocket Bike with 49cc Engine

This miniature motorcycle is designed for recreational use. It features a two-stroke engine, typically with a displacement of around 49cc, providing sufficient power for its small size.

Overview

Compact Performance

The MT-A2 miniature pocket bike is designed for recreational use on smooth, paved surfaces. Built with a durable steel frame and aerodynamic fairings, this bike combines sporty aesthetics with a responsive riding experience. It is powered by a reliable 49cc two-stroke engine, making it an exciting choice for enthusiasts looking for a compact and agile motorcycle.
