

## Mining Bucket Heel Shrouds

These heel shrouds provide high wear resistance for mining buckets, leading to higher production efficiency. Their durable construction offers high reliability and fatigue resistance in demanding mining environments.

### Product Overview

#### Heavy-Duty Mining Bucket Protection

These corner wear shoes, also known as heel shrouds, are essential protective components engineered for mining backhoe and shovel buckets. Designed to withstand highly abrasive environments, they protect the bucket's base material from excessive wear and impact. By extending the operational lifespan of the bucket, these shrouds help minimize maintenance downtime and ensure optimal performance in demanding mining applications.

### Supported Excavator & Shovel Models

Brand	Supported Models
CAT	6040, 6060, 6080
Hitachi	EX800, ZX870, EX1200-5, EX1200-6, EX1900-6, EX2500, EX3600
Terex/O&K	RH30E/D/F, RH40E/D/F, RH90C, RH120E, RH170B/E, RH340
Liebherr	R974, R984, R9250, R9350, R994
Komatsu	PC4000, PC5500, PC8000
P&H	2800, 4100A, 4100XPB, 4100XPC

### Compatible Equipment Brands

CAT, Hitachi, Terex/O&K, Liebherr, Komatsu, P&H
