

Mining Tooth, Pin, and Adapter Set

High wear resistance ensures enhanced production efficiency. The set is engineered for high fatigue resistance, offering reliability in demanding mining applications.

Product Overview

High-Performance Ground Engaging Tools

This mining tooth, pin, and adapter set is engineered for robust performance in demanding excavation and earthmoving environments. Constructed from high-strength materials, these components are designed to withstand heavy loads and abrasive conditions, ensuring extended service life and reduced operational downtime. The set provides reliable, efficient digging capabilities suitable for a wide range of heavy machinery, including excavators, loaders, and bulldozers.

Compatibility & Application

Compatible Machinery

Excavators, Backhoes, Front Shovels, Electric Shovels, Loaders, Bulldozers, Motor Grader Rippers

Product Range

Available Components

- Mining Tooth / Tooth Tips / Tooth Points
- Tooth Pins & Retainers
- Adapters
- Mining Lip Assemblies
- Mining Lip Shrouds
- Mining Wing Shrouds
- Half Arrows
