

MMA-120 IGBT Inverter Welding Machine with Hot Start and VRD

This is a compact and portable MMA-120 welding machine with IGBT inverter technology. It features smart inverter functions such as hot start and arc force, along with a VRD switch for enhanced safety.

Product Overview

The MMA-120 unit featuring a compact, portable design suitable for professional use.

Compact MMA-120 Inverter Welder

This portable MMA-120 welding machine utilizes advanced IGBT inverter technology to deliver stable and efficient arc performance. Designed for versatility and ease of use, it features smart welding functions including hot start and arc force to improve weld quality. Additionally, it is equipped with a Voltage Reduction Device (VRD) switch to enhance operator safety during manual metal arc welding applications.

Technical Specifications

Robust design of the MMA-120 inverter welder.

Arc Current	120 A
Rated Duty Cycle	35 %
Pulse Frequency	50-60Hz
Welder Type	MMA Welder

Features & Safety

User-friendly interface showing the smart inverter control settings.

Smart Functions

Hot Start, Arc Force, IGBT Inverter, VRD Switch

General Information

Condition

New

Origin

Zhejiang, China
