Overview

Versatile Concrete Solutions

This mobile concrete mixer with pump is designed for efficient on-site mixing and delivery, streamlining construction processes by combining two essential functions in one unit. It is ideal for small to medium-sized construction projects, including industrial and civil buildings, road construction, and infrastructure development. The equipment features a robust mixing drum and a high-pressure pumping system, significantly reducing labor requirements while improving construction speed and precision.

Technical Specifications

Available Models

- HBT30
- HBT40
- HBT50
- HBT60
- HBT80
- HBT90
- HBT100
- JBTS30
- JBTS40
- JBT40-A

Available Boom Lengths

25m, 29m, 33m, 42m, 50m

Construction & Performance

Performance Highlights

1 High

Delivery Efficiency

1 High

Delivery Height

1 Long

Delivery Distance

Primary Applications

Industrial Buildings, Civil Buildings, Highway Construction, Railway Construction, Bridges, Tunnels, Docks

Components

Global Component Standards

Component Category	Sourcing Standard
Chassis	Top Global Auto Brands
Power System	Major International Engine Brands
Hydraulic System	German & Japanese Engineering
Seals & Hoses	Global Famous Brands
