Product Overview

Mobile Spraying Solution

This mobile paint spraying unit is designed for versatility and efficiency in professional construction and coating applications. Featuring a robust, enclosed design mounted on a four-wheel chassis with pneumatic tires, it ensures easy maneuverability across various job site terrains. The unit includes a lockable access door for secure storage and is equipped to handle a wide range of materials, making it an essential tool for high-performance spraying tasks.

Applications & Compatibility

Compatible Materials

Real stone paint, Putty powder, Cement mortar, Waterproof mortar, Fireproof coating, Latex paint, Lime slurry

Equipment Configuration

Included Components

- Air compressor
- Pressure barrel
- Paint gun
- Scraper (extends to 2.2 meters)
- Big scraper blade (44x12 cm)
- Nozzles (Round and Fan types)
- Air and material pipes
- Wrench and screwdriver

Nozzle Configuration

Type	Quantity
Round nozzle	3
Fan nozzle	3

Design & Mobility

Mobility Features

Four-wheel chassis • Pneumatic tires • Lockable access door • Durable coating
