Overview

Versatile Climate Control

This compact and elegant mobile air conditioner is designed for seamless integration into office and home environments. It offers a comprehensive solution for year-round comfort, functioning as an air conditioner, fan cooler, dehumidifier, and heater. With a self-evaporative system that recycles condensate water to boost energy efficiency, it provides a high-performance, user-friendly climate management experience.

Technical Specifications

Refrigerant Compatibility	R410a, R290
Programmable Timer	24 hours

Features

Core Functionalities

- Air conditioning
- Fan cooling
- Dehumidification
- Heating
- Auto-swing function
- Self-evaporative system

Performance Highlights
