

Mobile Phone Display Dummy

This is a non-functional, gray mobile phone dummy. It is designed for display purposes and resembles a generic mobile phone.

Product Overview

Professional Display Solution

This non-functional mobile phone dummy is designed for retail display, demonstration, and merchandising purposes. Featuring a realistic, textured surface and a generic rectangular form factor, it provides a cost-effective way to showcase phone accessories or store layouts. The unit includes a convenient integrated hole, making it suitable for secure mounting or keychain-style displays.

Physical Attributes

Form Factor	Rectangular with rounded edges
Color	Gray
