Product Overview

Heavy-Duty Mobile Tire Service Solution

This electro-hydraulic tire changer is engineered for the demanding requirements of truck, bus, and tractor tire maintenance. Designed with mobility in mind, the unit is fully capable of being operated within a workshop or deployed for roadside service vehicles. It features a soundproofed power generator and robust construction to ensure reliable performance in diverse environments.

Technical Specifications

Rim Diameter Range	13 - 26 inches
Max Wheel Weight	700 kg
Max Wheel Width	600 mm
Max Tire Diameter	1300 mm
Bead Breaker Force	2500 kg

Power & Performance

Core Performance Metrics

<p>1.1 kw</p> <p>Hydraulic Pump Motor</p>	<p>1.1 kw</p> <p>Gear Box Motor</p>
Power Supply	380V / 50HZ / 3PH

Van Compatibility

Van Installation Requirements

Requirement	Dimension
Max machine chassis height to door top	1450mm
Min inner van width	1650mm
Min door width	980mm
Max van thickness	< 160mm
Chassis to floor height	700mm

Certifications

Compliance & Standards	CE, ISO, SGS
