

Mobile Workover Rig

This mobile workover rig is mounted on a truck chassis. It is designed for well maintenance and servicing operations, featuring a lattice-style mast and a drawworks system.

Overview

Professional Mobile Workover Solution

This mobile workover rig is engineered for efficient well maintenance and servicing operations in the field. Mounted on a heavy-duty truck chassis, it offers excellent mobility for rapid deployment between various well sites. The integrated lattice-style mast, robust drawworks, and hydraulic systems provide the reliability required for complex downhole tool manipulation and lifting tasks.

Technical Specifications

Equipment Type	Mobile Workover Rig, Well Maintenance, Lattice-style Mast
