

Modern Aluminum Telephone Booth with Advertising Panels

This modern telephone booth features a robust aluminum frame and integrated advertising panels. Its partially enclosed design offers privacy and protection from the elements, supported by sturdy black pillars.

Product Overview

Modern Public Utility and Advertising Solution

This modern telephone booth combines structural durability with high-visibility advertising potential. Featuring a robust aluminum frame and integrated illumination panels, it is specifically engineered for high-traffic public spaces. The design prioritizes user privacy and weather protection while serving as an effective medium for commercial messaging.
