

Modern Architectural Landmark Model

This is a scale model of the Beijing TV Center. It won the 2009 China Construction Engineering Luban Prize.

Product Overview

Beijing TV Center Model

This architectural model represents the iconic Beijing TV Center, a landmark of modern urban design. Crafted with attention to detail, it showcases the complex geometry of the building's facade, incorporating glass and steel aesthetic elements. This display piece is ideal for architectural firms, urban planning exhibitions, and collectors of modern structural design.
