

Modern Multi-Building Complex Architectural Model

This is an architectural scale model of a multi-building complex. It features modern high-rise towers with glass facades, green spaces and pedestrian walkways.

Overview

Modern Urban Development

This architectural model showcases a sophisticated multi-building complex designed for contemporary urban environments. The design features high-rise towers with modern glass facades, seamlessly integrating residential or commercial spaces with essential infrastructure. It emphasizes high-quality urban planning, incorporating green spaces and pedestrian-friendly walkways to create a balanced built environment.

Design Features

Key Complex Components
