Product Overview

High-Density Modular Distribution

The C6 series modular circuit breaker panels provide an efficient, space-saving solution for housing electrical breakers in residential and commercial environments. Designed for standardized, cost-effective installation, these panels feature a 3D diamond-cut aesthetic that blends seamlessly into modern interiors. With flexible installation options and robust fire resistance, they offer a reliable and professional-grade distribution system.

- 36 ways

Environmental Ratings

IP30, 650 Fire Resistance

Installation & Design

Mounting Options

Flush Mounted • Wall Mounted

Installation Features

- Built-in level meter for accurate positioning
- Adjustable guide rail depth
- 180° door opening angle
- Composite knock-out holes for multi-directional wiring

Standards

IEC60670
