Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is engineered for demanding industrial material handling, featuring a robust 38mm design suitable for XY conveyor systems. Constructed from durable materials with a 0% open area, it offers exceptional load-bearing capabilities of up to 1.2 tons per square meter. The system is designed for longevity, requiring minimal maintenance while providing versatile operation across a wide temperature range.

Technical Specifications

Maximum Load Capacity

1.2 tons/m²
