Overview

Modular Plastic Conveyor Belt

This modular plastic conveyor belt is engineered specifically for demanding food processing environments. Designed for efficiency and hygiene, it features a robust modular construction that allows for easy assembly, disassembly, and maintenance, significantly reducing operational downtime. With food-grade materials and a design that supports thorough cleaning, it provides a reliable solution for conveying everything from raw meat and poultry to bakery and snack food items.

Technical Specifications

Model Type	HS-2500A
Pitch	25.4 mm
Thickness	10 mm
Minimum Width	50 mm
Rod Diameter	4.9 mm
Open Area	0%
Available Materials	PP, POM, PE, PA
Available Colors	White, Blue, Gray, Nature, Dark-brown

Performance

Maximum Load Capacity

1.2 tons/m²
Max Load

Working Temperature	-40°C to 260°C
---------------------	----------------

Features

Standards Compliance

FDA Approved • EU Approved

Key Features

- Floating in water
- Food defrosting capable
- Maintenance-free
- Easy to clean
- Flight included
- No side guard
- Non-curving

Compatibility

Sprocket Dimensions

Specification	Details
Sprocket Sizes	8T-2R, 10T-2R, 12T-2R, 15T-2R, 18T-2R, 20T-2R, 20T-2R-Split
Bore Types	Square bore, Round bore

Applications

Suitable Industries

- Meat (beef & pork)
- Poultry
- Sea Food
- Bakery
- Snack Food
- Fruit & vegetables
- Automotive
- Tire manufacturing
- Packaging
- Printing/Paper
- Postal
- Corrugated cardboard
- Can manufacturing
- PET manufacturing
- Textile
