

Modular Plastic Conveyor Belt for Seafood Processing

This modular plastic conveyor belt is designed for seafood processing applications. It offers easy cleaning and maintenance due to its modular design.

ADDITIONAL IMAGES

Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is specifically engineered for demanding environments like seafood and food processing. Its durable, modular design allows for easy assembly, maintenance, and repair, while the open-grid structure facilitates efficient drainage and airflow. Built to withstand harsh conditions, it offers excellent resistance to chemicals and abrasion, ensuring long-lasting reliability and operational efficiency.

Technical Specifications

Maximum Load Capacity

1.2 tons/m²
Max Load

Model Type	HS-3000B
Pitch	25.4 mm
Thickness	9.8 mm
Minimum Width	100 mm
Open Area	25 %
Rod Diameter	4.9 mm
Working Temperature	-40°C to 260°C

Configuration & Materials

Sprocket Specifications

Feature	Specification
Sprocket Size	20T
Bore Type	Square and Round

Material Options PP, POM, PE, PA

Available Colors White, Blue, Gray, Nature, Dark-brown

Compliance & Features

Certifications

FDA Approved • EU Approved

Key Advantages

- Floating in water
- Suitable for food defrosting
- Maintenance-free design
- Easy to clean
- High load capacity

Applications

Food Industry Applications Meat, Poultry, Seafood, Bakery, Snack Food, Fruit & Vegetables

Industrial Applications Automotive, Tire Manufacturing, Packaging, Printing/Paper, Postal, Corrugated Cardboard, Can Manufacturing, PET Manufacturing, Textile
