Product Overview

Modular Plastic Conveyor Belt for Spiral Systems

This modular plastic conveyor belt is engineered specifically for spiral conveyor applications, offering robust performance and high durability. Designed to meet strict industry standards, it is suitable for both food processing and non-food industrial environments. The system features a maintenance-free design that helps reduce pollution and improve overall production quality, with a maximum load capacity of up to 1.2 tons per square meter.

Technical Specifications

Available Colors

White • Blue • Gray • Nature • Dark-brown

Model Type	HS-2200A-EL
Pitch	19.05 mm
Minimum Width	400 mm
Curve Operation	Yes
Material Composition	PP, POM, PE, PA
Working Temperature	-40°C to 260°C

Performance Metrics

Max Load Capacity

1.2 tons/m²

Max Load

Compliance & Features

Key Advantages

- Floating in water capability
- Suitable for food defrosting
- Extended service life
- Maintenance-free design
- Easy to clean

Regulatory Approval

FDA, EU

Applications

Industry Applications

Sector	Industries
Food Industry	Meat, Poultry, Sea Food, Bakery, Snack Food, Fruit & Vegetables
Non-food Industry	Automotive, Tire, Packaging, Printing/Paper, Postal, Corrugated Cardboard, Can/PET Manufacturing, Textile
