Product Overview

Modular Plastic Conveyor Belt

This modular plastic conveyor belt is engineered for efficient and reliable material handling across diverse industrial environments. Featuring a specialized raised bid design, it offers enhanced grip and stability for conveyed items, preventing slippage during operation. Its modular construction facilitates easy assembly, maintenance, and customization to meet specific system requirements, while durable material options ensure resistance to wear and temperature fluctuations.

Technical Specifications

Max Load Capacity

1.2 tons/m²

Maximum Load

Pitch	50.8 mm
Thickness	25.5 mm
Minimum Width	163 mm
Open Area	36 %
Rod Diameter	5.8 mm
Working Temperature	-40°C to 260°C

Configuration & Materials

Available Colors

White • Blue • Gray • Nature • Dark-brown

Sprocket Configuration

- 6T
- 8T
- 10T
- 12T
- 16T
- 17T
- 8T-Split

Available Materials

PP, POM, PE, PA

Features

Key Features

- Raised bid design
- Food approved materials
- Maintenance free
- Easy to clean
- Floating in water
- Suitable for food defrosting

Compliance

Certifications & Approvals

FDA, EU

Applications

Industry Usage

Sector	Applications
Food Industry	Meat, Poultry, Sea Food, Bakery, Snack Food, Fruit & Vegetables
Non-food Industry	Automotive, Tire, Packaging, Printing/Paper, Postal, Corrugated Card-board, Can/PET manufacturing, Textile
