

Molded Case Circuit Breaker 32A-800A

The circuit breaker has a rated insulation voltage of 800V and applies to distribution circuits of AC 50/60Hz. It is designed to protect the line and prevent power equipment from overload and short circuits.

Product Overview

Molded Case Circuit Breaker (MCCB)

This molded case circuit breaker is designed for reliable circuit protection in electrical distribution systems. It is engineered to handle AC 50/60Hz circuits, providing essential protection against overloads, short circuits, and other electrical faults. Suitable for both vertical and transversal installation, this device ensures safety and performance in demanding industrial environments.

Electrical Ratings

Rated Operating Voltage	690 V
Rated Insulation Voltage	800 V
Rated Current Range	6A - 800A
Rated Pulse Voltage	8 kV

Technical Specifications

Installation Methods

- Vertical installation
- Transversal installation

Standards	IEC60947-2, GB14048.2
-----------	-----------------------

Accessories

Compatible Accessories

Shunt trip release • Undervoltage • Auxiliary contact • Alarm contact • Rotary handle • Motor operation mechanism • Busbar

Performance Data

Frame Class Performance

Frame Class	Rated Current (A)	Icu (kA)
100	40, 50, 63, 80, 100	25
225	125, 140, 160, 200, 225	25
400	225, 315, 350, 400	25
630	400, 500, 630	25
