

Molded Pulp 25-Egg Tray

This molded pulp fiber tray is designed to hold 25 eggs securely. Its 5x5 grid design protects and organizes eggs during storage and transport.

Product Overview

Sustainable Egg Protection

This molded pulp fiber tray is expertly engineered to hold 25 eggs securely. Featuring a 5x5 grid layout, it provides essential protection and organization for storage and transport. Constructed from recycled paper pulp, this tray is fully biodegradable, making it an environmentally friendly choice for farms, grocery stores, and home use.

Technical Specifications

Egg Capacity	25 eggs
Grid Configuration	5x5
Material	Recycled paper pulp

Features & Benefits

Key Advantages

- Individual compartments for each egg
- Minimized breakage risk
- Secure storage and transport
- Versatile for farm, store, or home use

Sustainability	Biodegradable, Recycled Material, Eco-friendly
