

Morse Taper Shank HSS Drill Bit

This high-speed steel (HSS) drill bit features a Morse taper shank for secure mounting in machine tools. It is designed for drilling holes in various materials, providing durability and efficient chip evacuation.

Product Overview

Professional Morse Taper Shank Drill Bits

These high-speed steel (HSS) drill bits are engineered for precision and durability in industrial drilling applications. Featuring a Morse taper shank, they ensure secure, concentric mounting in lathes, drill presses, and milling machines, providing optimal torque transmission. Available in a wide range of sizes, these bits are designed to deliver clean, accurate holes while minimizing slippage and heat buildup.

Technical Specifications

Material	M2 (P6M5) High-Speed Steel
Size Range	6.5mm to 120mm
Surface Finish	Black Oxide, Bright
Shank Type	Morse Taper

Usage & Compatibility

Compatible Equipment

- Drill Presses
- Lathes
- Milling Machines

Drilling Applications

Metal • Wood • Plastic
