Product Overview

Smart Motion-Activated Illumination

This motion-sensing LED lamp provides a convenient, automated lighting solution for indoor environments such as hallways, bedrooms, and bathrooms. Designed for direct plug-in operation, it eliminates the need for batteries or complex wiring while offering energy-efficient performance. The integrated sensor detects movement to activate light only when needed, making it an ideal choice for safety and convenience in dark spaces.

Technical Specifications

Input Voltage	220-250V/AC
Frequency	50 Hz
Power Consumption	0.25 W
Max Incandescent Load	630 W

Performance Metrics

Sensor Performance

45 sec

Time Delay

150 LUX

Max Ambient Light

Lighting Details

Color Temperature	6500K (White)
