Product Overview

Motion Sensor LED Cabinet Lighting

This versatile LED cabinet light features an intelligent motion sensor for automatic, hands-free illumination, making it an ideal solution for closets, cabinets, and pantries. Encased in a sleek, durable aluminum housing with a frosted diffuser, it provides even, efficient lighting while maintaining a low-profile aesthetic. Designed for convenience, the unit operates on battery power, allowing for easy installation without the need for complex wiring.

Key Features

Motion Sensor, Battery Powered, Aluminum Housing, Frosted Diffuser, Automatic Operation

Technical Specifications

LED Chip Type	3014 SMD
Color Temperature	3000K - 6500K
Voltage	5 V

Performance Metrics

Performance by Model

0.5 W

Wattage (Small)

50 LM

Lumens (Small)

2 W

Wattage (Large)

180 LM

Lumens (Large)
