

Motorcycle Aluminum Front Wheel

Aluminum front wheel designed for motorcycles. Features a three-spoke design, polished rim, black painted center, and integrated bearing assembly.

Product Overview

Premium Aluminum Front Wheel

This high-quality motorcycle front wheel is engineered from durable aluminum, offering a balance of strength and lightweight performance. The design features a distinctive three-spoke configuration that enhances the aesthetic appeal of the motorcycle. Complete with a polished rim and a sleek black painted center section, this wheel is ready for integration and includes a pre-installed bearing assembly for efficient performance.
