Product Overview

High-Performance Tire and Tube Solutions

These professional-grade tires and tubes are engineered for durability and reliable performance across various road conditions. Utilizing premium rubber compounds, the products offer enhanced grip, puncture resistance, and extended wear life. Designed for both motorcycle and bicycle applications, they provide stability and safety for diverse riding environments.

Production Capacity

Annual Tyre Output	8000000 pieces
Annual Tube Output	25000000 pieces

Certifications & Compliance

Certifications	ISO 9001:2008, SONCAP, INMETRO, DOT, E-MARK
----------------	---

Quality Assurance

Quality Standards

- In-house laboratory testing
- Raw material inspection
- Rigorous production quality checks

Product Details

Available Tread Patterns

- HDMA006-1
- HDMC013

Application Compatibility

Motorcycle • Bicycle • On-road • Off-road
