

Motorcycle Brake Cable

This high-performance brake cable is designed for motorcycles. It ensures smooth and reliable braking performance with its durable outer casing and low-friction inner wire.

Product Overview

High-Performance Braking Solution

This high-performance motorcycle brake cable is engineered to deliver smooth and reliable braking performance in demanding conditions. It features a durable outer casing designed to resist abrasion and corrosion, ensuring long-term reliability. The low-friction inner wire provides responsive and precise control, making it an essential component for optimal motorcycle safety and function.

Technical Features

Performance Highlights

1 Low

Friction Level

Key Features

Abrasion Resistant, Corrosion Resistant, Low-Friction Inner Wire, Precision Engineered
