

Motorcycle Clutch Assembly

This motorcycle clutch assembly is designed for power transmission in motorcycle engines. It features a clutch basket with gear teeth and a central hub.

Product Overview

High-Performance Clutch Assembly

This motorcycle clutch assembly is engineered for reliable power transmission within the engine system. Featuring a robust clutch basket with precision-cut gear teeth and a central hub, it ensures smooth engagement and durability. Designed for compatibility and consistent performance, this component is an essential part of the motorcycle drivetrain.

Technical Details

Assembly Type

Motorcycle Engine • Power Transmission

Model Identification

CB253

Construction

Key Components

- Clutch Basket
- Central Hub
- Clutch Plates
- Central Securing Plate
