

Motorcycle Drive Chain

This motorcycle drive chain is constructed from hardened steel for enhanced durability and wear resistance. Precision engineering ensures smooth operation and efficient power transfer.

Product Overview

High-Performance Drive Chain

This motorcycle drive chain is engineered for high strength and efficient power transfer. Constructed with advanced heat-treated materials, it offers superior wear resistance and durability for demanding riding conditions. Designed for smooth operation and reduced friction, this chain provides a reliable solution for various motorcycle models.

Technical Specifications

Available Models

- 420
- 420H
- 428
- 428H
- 520
- 520H
- 530
- 630

Material Composition

Component	Material Grade
Plate	45Mn
Pin	30CrMnTi
Roller	20#

Features & Options

Available Colors

Natural • Blue • Golden

Service Capabilities

OEM Acceptable, Heat Treated, High Strength
