

Motorcycle Drive Sprocket

This motorcycle drive sprocket is constructed from high-strength A3 steel. It features a precision-engineered tooth profile for smooth chain engagement and reduced wear.

Product Overview

High-Performance Motorcycle Drive Sprocket

This motorcycle drive sprocket is engineered for professional-grade power transfer and long-term durability. Manufactured from high-quality A3 or 45# steel, it undergoes specialized heat treatment to achieve ultra-strong hardness and exceptional abrasion resistance. The precision-engineered tooth profile ensures smooth chain engagement, making it a reliable choice for demanding riding conditions.

Technical Specifications

Manufacturing Process

- Heat treatment for enhanced hardness
- Precision manufacture
- OEM compatible styling

Material

A3 Steel, 45# Steel

Performance Features
