

Motorcycle Engine Cylinder Block

This cylinder block is engineered for motorcycle engines, ensuring optimal performance. It is designed with a bore inner diameter of 78 mm and a total height of 107.6 mm.

Product Overview

High-Performance Cylinder Block

This high-performance cylinder block is engineered specifically for motorcycle engines, ensuring durability and optimal thermal management. Designed to meet demanding application requirements, it provides a robust foundation for engine operation. It is compatible with YF300 and VESPA150 models, offering precise dimensions for a reliable fit and improved engine efficiency.

Technical Specifications

Bore Inner Diameter	78 mm
Bore Outer Diameter	92 mm
End Face Distance	70.6 mm
Total Height	107.6 mm

Compatibility

Compatible Models	YF300, VESPA150
