Product Overview

Complete set of gaskets required for a full engine rebuild.

Comprehensive Engine Sealing Solution

This complete engine gasket set is engineered for 70cc cub-style motorcycle engines, providing all necessary components for a full engine rebuild. Designed to ensure a reliable, leak-free seal, these gaskets are crafted from high-quality materials to withstand heat and pressure conditions. This set is essential for maintaining optimal engine performance and longevity during routine maintenance or major repairs.

Compatibility

Comprehensive set compatible with various JH-series engines.

Compatible Series

- JH50
- JH70
- JH90
- JH100
- JH110
- JH125

Compatible Engine Models

1P47FMC, 1P39FMA

Technical Details

High-quality sealing materials designed for durability and performance.

Material Properties

Heat Resistant • Oil Resistant • Durable

Application Type

Full Engine Rebuild
