

Motorcycle Engine Side Cover

This motorcycle engine side cover is made from a durable metal alloy. It is designed for four-stroke engines and provides secure attachment to the engine case.

Product Overview

Precision-Engineered Engine Side Cover

This motorcycle engine side cover is designed for durability and seamless integration with four-stroke engine assemblies. Crafted from a high-quality metal alloy, it offers robust protection for critical internal components such as the clutch or stator assembly. Its corrosion-resistant finish ensures long-term performance in various environmental conditions, making it a reliable choice for maintenance and repair applications.

Technical Specifications

Color

Dark Gray • Black

Material Composition

Cast aluminum alloy

Surface Finish

Corrosion-resistant powder coating

Engine Compatibility

Four-stroke engines

Key Design Features

Oil passage integration, Reinforced bolt mounting, Stator/Clutch protection
