

Motorcycle Exhaust Pipe

This motorcycle exhaust pipe is made from durable steel tubing and chrome-plated for enhanced resistance to corrosion. Its curved design promotes efficient exhaust gas removal and improved engine performance.

Product Overview

TM125-5 Performance Exhaust

The TM125-5 exhaust pipe is a high-quality replacement component engineered for optimal performance and durability. Crafted from robust steel tubing with a premium chrome-plated finish, it ensures long-term resistance to heat and wear. The precision-curved design promotes efficient exhaust flow, helping to enhance overall engine performance while maintaining reliable operation.

Technical Specifications

Material & Finish	Steel tubing with chrome plating
Model Compatibility	TM125-5

Features

Included Components

- Exhaust pipe
- Mounting bracket

Design Highlights	Chrome-plated, Curved design, Durable steel
