

Motorcycle Exhaust System with Carbon Fiber Sleeve

This motorcycle exhaust system is made with 304 stainless steel and a real carbon fiber sleeve. It is designed to fit BMW R1250GS motorcycles.

Product Overview

High-Performance Exhaust System

This premium motorcycle exhaust system is engineered for riders seeking an upgrade in both performance and aesthetics. Constructed from durable 304 stainless steel and finished with a genuine carbon fiber sleeve, it offers a perfect balance of strength and weight reduction. Designed to handle extreme thermal conditions, the system incorporates high-quality heat-resistant materials capable of withstanding temperatures exceeding 1000°C.

Technical Specifications

Thermal Resistance

1000 °C

Temperature Tolerance

Materials

304 Stainless Steel, Real Carbon Fiber

Compatibility

Compatible Models

- BMW R1250GS
