

# Motorcycle Front Shock Absorber

Motorcycle front shock absorber designed for 110 models. It measures 445±2.5mm.

## Product Overview

### High-Performance Suspension Solution

This front shock absorber is engineered specifically for CD123A motorcycle models, offering superior damping characteristics for enhanced stability and control. Built with high-durability materials, it ensures long-lasting reliability even under demanding riding conditions. Designed to meet or exceed OEM specifications, this component provides an optimal fit and is an ideal choice for replacing worn or damaged suspension parts.

## Compatibility & Usage

### Usage Type

Replacement • Upgrade

### Compatible Models

CD123A

### Application

Front Suspension

## Technical Specifications

### Performance Features

- Superior damping performance
- Enhanced ride stability
- OEM-compliant engineering
- High-durability construction
