

Motorcycle Gear Shift Lever

This motorcycle gear shift lever is constructed from high-quality 45# steel. Its chrome-plated surface provides resistance to corrosion, wear, and tear.

Product Overview

Professional Grade Gear Shift Lever

This motorcycle gear shift lever is engineered to meet stringent OEM quality standards, ensuring reliable performance for daily riding and maintenance needs. Constructed from high-quality 45# steel, the lever offers exceptional durability and structural integrity. The chrome-plated finish provides a sleek appearance while offering robust protection against corrosion, wear, and tear, making it an ideal replacement part for professional repairs.
